

Terms of Service and Purchase: DigitalProductDrop

Effective Date: February 24, 2026

These Terms of Service and Purchase ("Terms") constitute a legally binding agreement between you ("User," "you," or "your") and JackDoesDigital LLC, doing business as DigitalProductDrop ("Company," "we," "us," or "our"). By accessing our website, using our services, or purchasing a "Product Drop," you agree to be bound by these Terms.

1. Description of Service

DigitalProductDrop provides an AI-powered platform designed to transform user-submitted ideas into digital products. Our service (the "Service") generates a bundle of assets which may include, but is not limited to, written lessons, structured course formats, PDF exports, marketing images, product descriptions, and selling frameworks (each a "Product Drop").

2. Purchase Terms and Payments

2.1 One-Time Purchase: DigitalProductDrop operates on a one-time purchase model. There are no recurring subscription fees.

2.2 Pricing: Purchases are one-time payments in the amounts advertised at checkout (currently \$19.99, \$29, or \$39).

2.3 Daily Build Slots: To maintain quality and processing speed, we reserve the right to limit the number of Product Drops generated per day.

2.4 Finality of Sale: Due to the digital and instant nature of the Service, cash refunds are generally not provided after generation. Regenerations may be available as described in Section 7.

2A. Refund Policy

Due to the nature of digital products and the immediate delivery of AI-generated content, all sales are final. By purchasing, you acknowledge and consent to lose your right of withdrawal once the digital content is provided. We do not offer refunds for subjective dissatisfaction with AI-generated results. However, if a technical failure occurs or the generation produces a verifiable system error, our sole obligation is to re-generate the product at no additional cost.

3. Intellectual Property Rights

3.1 Ownership of Output: Upon full payment and delivery, the Company hereby assigns to you all right, title, and interest in and to the specific text and content generated for your Product Drop. You are granted full commercial rights to sell, distribute, and market the generated assets.

3.2 Company Intellectual Property: The Service, including its underlying AI architectures, prompt engineering, software, website design, trademarks, and proprietary methodologies (the "System"), remains the sole property of the Company. Your purchase does not grant you any rights to the System itself.

3.3 User Responsibility: You represent and warrant that (a) the ideas and prompts you provide do not infringe upon the intellectual property rights of any third party, and (b) you are responsible for ensuring your inputs do not infringe on any third-party rights.

4. AI-Generated Content Disclaimer

4.1 Nature of AI: You acknowledge that the content is generated by artificial intelligence. While our system is designed to produce high-quality, professional-grade assets, AI may occasionally produce inaccurate, biased, or incomplete information ("Hallucinations").

4.2 Review Obligation: You are solely responsible for reviewing and fact-checking the generated content before selling or distributing it. The Company is not liable for any errors, omissions, or legal issues arising from the content of the generated products.

4.3 No Financial or Professional Advice: Any content generated regarding business, finance, health, or legal topics is for educational and informational purposes only and does not constitute professional advice.

5. No Guarantee of Results

DigitalProductDrop provides the tools and assets to create a digital product, but we do not guarantee financial success, specific income levels, or sales volume. Your success depends on your marketing efforts, the marketplace chosen, and the demand for your specific topic.

6. Acceptable Use

You agree not to use the Service to generate content that is:

- Illegal, hateful, or discriminatory.
- Designed to facilitate fraud or scams.
- Infringing upon the trademarks or copyrights of existing brands or individuals.
- Sexually explicit or otherwise inappropriate.

7. Satisfaction Guarantee and Revisions

If a generated Product Drop is unusable or does not meet structural standards, we offer a regeneration policy at no additional cost.

- **Revision Limits:** The "Starter Pack" includes one (1) full regeneration.
- **Process:** Claims for regeneration must be submitted within 24 hours of purchase. We reserve the right to determine if a product is "unusable" or fails to meet structural standards based on technical standards and prompt alignment.

8. Limitation of Liability

To the maximum extent permitted by law, JackDoesDigital LLC and its officers shall not be liable for any indirect, incidental, special, or consequential damages resulting from your use of the Service or the sale of your generated products. JackDoesDigital LLC provides tools for product creation but is not responsible for the user's success in selling, marketing, or distributing said products. Our total liability to you for any claim shall not exceed the amount paid for the specific Product Drop in question.

9. Third-Party Platforms

DigitalProductDrop provides assets intended for upload to third-party platforms (e.g., Kajabi, Gumroad, Etsy, Shopify). We are not affiliated with these platforms and are not responsible for their terms, fees, or any account

actions taken by said platforms regarding your generated content.

10. Public Knowledge Graph & Answer Pages

10.1 Ownership and License: Ownership of the Product Drop remains with you as provided in Section 3. However, you grant the Company a non-exclusive, perpetual, worldwide, royalty-free license to use and display limited portions of your Product Drop metadata, executive summaries, and FAQs to populate public-facing "Answer Pages" (AEO) and public knowledge indices/knowledge graphs used to help users discover and understand topics.

10.2 Attribution Signature ("Source Framework"): You agree that exports and public pages generated or indexed under this Section may include a "Source Framework" attribution to DigitalProductDrop to maintain the integrity and consistency of the knowledge graph.

10.3 Privacy / What Stays Private: Specific course body content (e.g., full lesson text, full PDF body content, full slide decks, and other long-form instructional materials) remains private to the purchaser by default and will not be published publicly under this Section. You acknowledge that structural and summary data (including product titles, outlines, learning objectives, executive summaries, and FAQs) may be indexed or displayed publicly for AI optimization and Answer Engine Optimization (AEO).

11. Modifications to Terms

The Company reserves the right to modify these Terms at any time. Continued use of the Service following such modifications constitutes your acceptance of the revised Terms.

12. Governing Law

These Terms shall be governed by and construed in accordance with the laws of the State in which the Company is headquartered, without regard to its conflict of law provisions.
